DP Sektoun Rammerich

Our Vision for the Future

Opposition work is much more than simply saying no! For us, being in opposition does not mean being against everything. It means: reviewing, questioning and improving.

We stand for:

- transparency
- constructive proposals
- citizen participation
- a forward-looking municipality for its residents

Our priorities:

- the safety of our children
- the modernisation of the municipality
- fair and transparent communication
- promoting sustainability
- community cohesion (associative life, bringing young and old together)

We remain critical and open to dialogue.

Opposition work goes far beyond simply saying no.

GRAND-DUCHÉ de LUXEMBOURG

ADMINISTRATION COMMUNALE DE RAMBROUCH

BUDGET 2026

Budget 2026

Why did we not support it?

In 2026, we did not vote in favour of the budget.

What is missing in our view:

- a clear vision,
- transparent priorities,
- a solid strategy for the future.

Key issues such as digitalisation, the energy transition and everyday concerns are not being driven forward sufficiently.

We do acknowledge the positive projects. However: too many promises, too few results.

Rammerich needs more vision, more transparency and more courage.

New DP Rammerich representative on the municipal council

Who is Jean Ketter?

36 years old, married, father of two children.

Originally from Bungeref, I have been living in Wolwen since 2019.

Professionally, I work as an administrative manager.

At municipal level, I am active in:

- the *Biergerkommissioun*,
- the *Kommissioun vum interkulturellen Zesummeliewen*.

Why now in the municipal council?

Following Pol Thill's move away from the commune, I will take up the role as the next elected member.

My priorities

I want our municipality to:

- continue to develop,
- remain close to its citizens,
- make responsible decisions.

My goal is to actively commit myself to the commune of Rambrouch and all our villages.

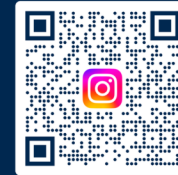

Your opinion matters! Your questions are important!
